Byron Fire Department Annual Records Officer Report
February 19, 2014

This is a summary report for calls reported to the State of Minnesota for the Byron Fire Department from January 1 – December 31, 2013.

	2009	2010	2011	2012	2013
City of Byron	31	41	45	31	37
Kalmer Township	13	12	15	20	8
Salem Township	9	10	13	8	12
Other/Mutual Aid	3	8	3	2	2
Totals	56	71	76	61	59

Other/Mutual Aid category in 2013 included two mutual aid calls for the City of Rochester, which were responded to as shown above.

2013 Call Volume Breakdown

House Fire/Cancel	7
Car Fire	4
Commercial Fire	1
Accident	11
Building/False Alarm	11
Medical/Lift Assist	6
Carbon Monoxide	5
Public Service Call	4
Hazardous Material	3
Gas Leak	3
Call Canceled In Route	2
Brush Fire	2
Total	59

For the past year, our Emergency Response Time Average was 7 minutes. This begins with our pagers being activated until the first fire department vehicle is on scene. Our fastest time was one minute and longest was 29 minutes (mutual aid call). 80% of our emergency responses were 10 minutes or less. One point of note is that due to the slow weather season last year, there were no weather watch or storm related calls for 2013.

- **The total time firefighters spent on calls in 2013 were approximately 1088 hours**
- **Truck maintenance nights equaled another 91 hours. This does not include the hours put in by our Maintenance Officers and those who helped.**
- **We had a total of 406 hours for monthly department meetings.**
- **Hours for planning and prep work for meetings, trainings, committees, fundraising, records and reporting are not counted, but are significant.**
-
